When you see a picture you like you have a couple of ways to download the picture immediately to your computer.

1. Click the download button beneath the picture as in the graphic to the left.

OR

2. Double click on the picture so it enlarges to almost the full screen. Then there is a download button on the left of the picture like the graphic below.

In both of these cases you will immediately have your desired picture and it is FREE - thanks to our wonderful parents who take the time to come photograph our band!

IF you wish to purchase pictures, you can do that from the second page where there are options to purchase paper prints, wall art or other keepsakes.
